LOCC-D

Team Goal

To assist Loving Our Community's Children (LOCC) with opening their new LOCC-D location by designing the interior of the space to maximize the functionality and welcoming nature of the space.

Project Scope

This project will take place over several months through various fundraisers and volunteer events where we would be working hands-on in the LOCC-D location.

Community Benefit

Our project will help the community by raising awareness of LOCC's new location, which will help them to reach underserved members of the community. We will also be able to help this organization by donating our time, labor, and materials to enhance the physical space of LOCC-D. Long-term, this project will ensure the children and families of Ascension Parish, and especially Donaldsonville, have the foundations they need to thrive.
